

Submitted to the Canadian Transportation Agency (Form submission)

Subject: Consultation on proposed changes to strengthen the Air Passenger Protection Regulations

Name: Audra Bassari

Date: 2023-07-11

<Removed > So my feedback is there should be very specific weather criteria that can be used as an excuse for flight delays. Airlines and air traffic control already this type of criteria. The airline should be forced to record the conditions that caused the delay and show that no other planes in their fleet are flying in/out of the airport.
