

Submitted to the Canadian Transportation Agency (Form submission)

Subject: Consultation on proposed changes to strengthen the Air Passenger Protection Regulations

Name: Daina Duncan

Date: 2023-07-13

Our government is doing nothing to protect us from these nasty air lines that are getting away with ripping people off! **<Removed >** It is disgusting what these airlines are getting away with. On the other hand they know they can because nothing is being done to them thanks to our non existent laws. In Europe when a flight is cancelled the airline has to send every passenger 500€ instantly when they cancel a flight. We need to e still this type of law here in Canada!
