

Submitted to the Canadian Transportation Agency (Form submission)

Subject: Consultation on proposed changes to strengthen the Air Passenger Protection Regulations

Name: Gary Jefferies

Date: 2023-07-27

I am concerned how our government can dictate how a private airline should carry out their compensation to their passengers when delays and cancelations happen. Any company in any transportation sector would certainly have their passenger best interest at heart and would do whatever it takes to retain their patronage.
