

## **Submitted to the Canadian Transportation Agency (Form submission)**

**Subject:** Consultation on proposed changes to strengthen the Air Passenger Protection Regulations

**Name:** Nolinor Aviation

**Organization:** Industry

**Date:** 2023-07-11

The introduction of this new bill serves no purpose other than to shift blame onto airlines for the shortcomings of the current government. It is disheartening and profoundly dismaying to witness such a misguided attempt to deflect responsibility. Our industry, which plays a vital role in connecting people and fostering economic growth, deserves far more than the callous disregard it has received from the government.
