

Submitted to the Canadian Transportation Agency (Form submission)

Subject: Consultation on proposed changes to strengthen the Air Passenger Protection Regulations

Name: Bruce Venables

Date: 2023-07-12

When flights are cancelled for ANY reason other than weather, passengers should be financially compensated, (NOT future flight credits) AND re-booked immediately even if another carrier must be used, at no extra cost to the passenger. When an airline accepts funds for a ticket, a binding contract has been entered, said contract MUST be fulfilled to transport the passenger as stipulated by the ticket.

Also, the flying Canadian public needs more choices in which airline to use. Deregulate the Air industry to allow MORE COMPETITION !

And yes, I have been subjected to flight delays and cancellations.
