**Feedback: I do not think that complaints regarding animal control methods should be charged money. Airports kill all sorts of wildlife and it is quite disgusting. The killing of wildlife is not sustainable. Currently, there are no laws mandating that Wildlife Management Programs at airports be humane and non lethal. That means that virtually any legal method can be used.**

**<https://www.change.org/p/ask-airports-to-stop-killing-deer-and-turkeys-and-stop-trapping-coyotes>**

**I am quite concerned with the requirements for a “wildlife control agent” at an airport to hold a firearm permit. The laws thankfully do not mandate the killing of animals, but it does not forbid it either. I sure hope the firearms are to scare animals off, rather than kill them. <https://laws-lois.justice.gc.ca/eng/regulations/sor-96-433/page-22.html#h-989170>**

**Please amend the laws to mandate that wildlife management is only done in a humane, cruelty free no kill manner, by an animal protection organization rather than a trapper, hunter or exterminator.**

**Wildlife airplane strikes kill animals and humans alike. This is why it is essential that every airport has a wildlife program. Airports can use any legal method of animal management. Transport Canada mandates that every airport has a “wildlife management” plan that mandates firearms training. While this could be for non lethal humane hazing with noise, most airports trap and shoot animals.**
